ITL Request:

Special DSN Requirements: The Ka-band station is for a shadow pass of DSS-14. DSS-25 required in addition to currently scheduled DSS-14 pass. The DSS-25 station is required to acquire Ka-band. The DSS-14 station is required for telemetry downlink and for X-band uplink and ranging. The Ka-band station shall receive two simultaneous downlinks at X-band and Ka-band, both coherent with the X-band uplink from DSS-14. Actually, not sure where uplink should be.

Special Requirements: Use RSSK_RWAF operational mode. On the spacecraft, KEX and Ka-band TWTA must be turned on.

Support Imaging Required:
